

Created

for nurses, with the help of nurses.

When we set out to create a better way to count and secure sharps, we asked hundreds of experienced surgical nurses for their opinion. They made their points and we developed a family of easy to use products that have been proven to work through practical, real-world application.

ACCUCount®

With ACCUCount, just press and release.

No hooking required. You'll minimize risk and maximize efficiency when you put ACCUCount to work for your surgical team. Smaller needles no longer get lost in the foam. The trademark yellow color provides a high contrast that makes counting needles a breeze.

ACCUCount at a glance

- Adhesive gel grabs and grips sharps
- Eliminates hooking motion that can lead to carpal tunnel
- Ideal for smaller needles that get lost in foam devices
- Large magnetic pad for scalpel blades
- One-step, locking latch
- Yellow color simplifies needle counting

NeedleVISE®

5-Port and 1-Port sharps securement

Now you can enjoy the ultimate in sharps protection.

NeedleVISE adds safety when the use of integrated safety needles is not possible. The NeedleVISE provides sharp securement, eliminates tray penetration concerns, allows for easy needle insertion and accepts a wide range of sizes.

NeedleVISE 5-Port at a glance

- Holds needles 17 ga to 27 ga
- Secured needles can't penetrate tray
- Organizes sharps for easy accountability
- Compact design allows easy disposal in sharps container
- Fits into your procedure tray

NeedleVISE 1-Port at a glance

- Only device that secures large gauge needles
- Holds needles from 8 ga to 27 ga
- Universal solution for safe needle securement
- Large target makes needle insertion safe and easy
